NGV INDUSTRY VETERAN GORDON LARSEN JOINS NGVi

Las Vegas, NV - [Natural Gas Vehicle Institute](#) (NGVi), the leader in technical training and consulting services related to natural gas as a transportation fuel, is proud to welcome industry veteran Gordon Larsen to its team as a new technical instructor. With over 40 years in the industry, Mr. Larsen brings a wealth of experience, working as an NGV fleet supervisor, an educator and an NGV and fueling expert.

Larsen has had an impressive, decades-long career in the NGV industry. During his tenure at Questar Gas, he managed the company's fleet of 900 vehicles – 800 of which ran on natural gas. He also served in NGV business development capacities, helping customers introduce NGVs and fueling into their operations. He has earned master-technician certifications from Ford and GM, and diesel certifications from Allison, Cummins, Detroit Diesel and Caterpillar.

Larsen was a frequent guest lecturer at applied technology schools including Weber State University, Utah State University, and Salt Lake Community College, as well as a technical conference speaker for public service commissions and National Clean Cities on the topic of natural gas as a transportation fuel. In 2005, he received a Lifetime Achievement Award from Natural Gas Vehicles for America (NGVA) and Clean Vehicle Education Foundation (CVEF).

"We are extremely pleased that Gordon has agreed to join our team," said Leo Thomason, Executive Director of NGVi. "His extensive knowledge of natural gas vehicles and fueling technology, plus his dedication to teaching, will be an enormous asset to us. I am confident that NGVi and its customers will benefit greatly from his expertise and perspective as we continue our growth."

In addition to his career at Questar Gas, Larsen is an expert on National Fire Prevention Association (NFPA) regulations. He has served as a codes enforcement inspector and instructor for the North Davis Fire Department as well as fire marshal liaison.

###

[About NGVi](#): NGVi is North America's leading provider of technical consulting and training on natural gas vehicles and fueling technologies. Established in 1989, NGVi has worked with hundreds of companies and government agencies throughout the U.S. and worldwide to help successfully integrate natural gas into their transportation mix. NGVi's training team is comprised of CSA and ASE certified instructors, each with more than 20 years' experience in technical consulting and training on natural gas vehicles and fueling.
